GETTING STARTED:

- For Android

1) How to obtain the BT Connection APK (**VeryFitPro**)

Search for the **VeryFitPro APP** in the Play Store; download it and install it in your Android smartphone, or go to our **website www.sami.es** and download the application.

2) Installation of the **VeryFitPro** APK.

When installing the **VeryFitPro** application on your Android, you must allow all the Application Permissions, allow this **VeryFitPro** app auto run.

The first time you run this **VeryFitPro app**, it will ask you to Enable Notifications, please tap OK and tap the **VeryFitPro** and confirm OK. You must tap OK/Allow/Pair/Yes/Confirm for any pop-up request. On your Android permission management, allow all application permissions.

3) How to make the wearable pair with your Android smart phone?

*First, turn on the Bluetooth of your Phone.

*Second, run the **VeryFitPro** app on your Phone, on the home page of **VeryFitPro**, find the pairing request by the pulling down on the home page of the APP. Then select "**Confirm**", the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **ID205L or WS-2332** (the BT name of this device) to make it pair. Select "**confirm bind device**" and the pairing will be finished in a few seconds. When you pair for the first time, the **VeryFitPro** app will ask you to enable GPS and Bluetooth, and authorize **VeryFitPro** to get access to the GPS on you mobile phone. When you finish select OK/Confirm/Allow for any pop-up request.

* Now you can start using your desired functions of the smart band.

Important: To enable all notifications of different softwares such as WhatsApp, Facebook, Skype, Twitter, you will need to turn on the notifications on the APP manually. On the **VeryFitPro** homepage, select the icon "**Device**" (situated on the right bottom of the screen), → select "**SNS Alert**" → turn on "**Allow notification**" and turn on all the APP notifications you want to active.

- For iPhone

1) How to obtain the BT Connection APP? (**VeryFitPro**)

On iPhone, please go to APP Store and search **VeryFitPro** and install the app.

2) How to make the wearable pair with your iPhone?

*First, turn on the Bluetooth of iPhone

* Run the **VeryFitPro** app on the iPhone, on the home page of **VeryFitPro**, find the pairing request by the pulling down on the home page of the APP. Then select "**Confirm**", the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **ID205L or WS-2332** (the BT name of this device) to make it pair. Select "**confirm bind device**" and the pairing will be finished in a few seconds. When you pair for the first time, the

VeryFitPro app will ask you to enable GPS and Bluetooth, and authorize **VeryFitPro** to get access to the GPS on your mobile phone. When you finish select OK/Confirm/Allow for any pop-up request.

* Now you can start using your desired functions of the smart band.

Important: To enable all notifications of different softwares such as WhatsApp, Facebook, Skype, Twitter, you will need to turn on the notifications on the APP manually. On the **VeryFitPro** homepage, select the icon “**Device**” (situated on the right bottom of the screen), → select “**SNS Alert**” → turn on “**Allow notification**” and turn on all the APP notifications you want to activate.
